

The *Institute for Educational Advancement* (IEA) is an independent, national non-profit dedicated to supporting our nation's most talented young people by providing programs that match each student's unique gifts and talents with the most appropriate mentors, schools and other educational environments.

The mission of IEA's Caroline D. Bradley Scholarship Program is to identify exceptionally gifted middle school students who exhibit advanced intellectual talent and have the ability to demonstrate academic and personal excellence. These exceptional students are awarded a four-year scholarship to attend an optimal high school program where they can actualize their unique individual potential and work toward their personal best.

The Scholarship was launched in 2002, when five students from the greater Los Angeles and San Francisco Bay areas were selected as the inaugural Caroline D. Bradley Scholars. It is now offered nationally to applicants from all 50 states. Scholars become part of a group of bright individuals who enjoy the fellowship of other recipients and the lifelong recognition of being a Caroline D. Bradley Scholar. Annually, the entire CDB community of scholars, alums, parents, and educators come together for a three-day seminar to discuss issues of global importance and personal relevance.

The Caroline D. Bradley Scholarship was both inspired and funded by a generous donor dedicated to supporting high potential children. The donor encourages all young people to strive for their personal best and a commitment to the common good.

Award

The Caroline D. Bradley Scholarship award offers access to financial support, academic guidance, and the opportunity to develop lifelong connections with a unique peer network.

Scholarship for High School - Caroline D. Bradley Scholars receive a four-year high school scholarship that covers day student tuition or an approved alternative educational program. The award does not cover boarding or other non-tuition related expenses and fees. Textbooks may be covered based on need.

Guidance - Caroline D. Bradley Scholars receive individualized guidance with identifying and applying to high schools that will provide the optimal educational environment for their interests and needs. IEA provides academic guidance and support throughout each Scholar's high school career.

Peer Network - Caroline D. Bradley Scholars will join a group of motivated young people identified for both their academic ability and personal character. The annual Bradley Seminar brings the CDB community together as a unified group of like-minded individuals, providing Scholars with an intellectual community and social connectivity that is welcoming and lasting.

A Caroline D. Bradley Scholar is expected to maintain strong academic standing and demonstrate behavior that is reflective of their personal best. Each Scholar enters into an agreement with IEA delineating their commitment to a high level of academic and personal performance. Each recipient is expected to provide ongoing communication with IEA regarding their experiences, goals, and challenges.
